27 New Broad Street

London 22 July 1847

70

My dear Phelps,

I have just learnt from Mr Paul that you have taken Sundry papers away with you which were presented by you to the Convention under the idea that they would not be printed here - allow me to say that this has not been decided upon yet, and that we must have them papers in case we do print. Oblige me therefore by sending them to Town as soon as convenient. If they should not be printed, you will have them forwarded to you at Boston -

Truly & affectionately yours

J. Noble
